

Softi  
Gel  
BY PROCAPS

Dare us to go  
**beyond** with your  
new discovery

## Product Development & Contract Manufacturing Services

Softigel, part of the Procaps Group, is a pioneer in softgels and one of the world's largest manufacturers. With deep knowledge in gelatin formulation and scientific softgel expertise, Procaps has developed innovative softgel associated technologies such as Unigel™, Versagels™, Chewgels™, with experience with more than 500 softgel formulations, partnering with big pharma players, generic companies in High Regulated Markets, Start-up companies; among many others.

Our differentiating strengths enable us to move into more difficult-to-manufacture compounds, formulations, dosage forms, and non-traditional manufacturing processes where few competitors can follow, offering strong analytical support and high expertise in NME's for High Regulated Markets.

## Services:

Formulation  
development

Scale-up  
services

Process  
development

Potent compound  
handling

CTM  
manufacturing

Flexibility for  
GMP batches

Some of the top global pharmaceutical innovative companies, leading generics, and start-ups trust Softigel for their softgel development and supply.
